PRESERVATION OF FOREST FOOD RESOURCES:
WILD BERRIES AND MUSHROOMS

54 Lenin blvd., Vytegra, Vologda Region, Russia. Tel.: 8(921)236-38-47, 8(931)505-00-20. E-mail: va.eco@bk.ru. Web-site: www.vaecoprod.ru
The company “VA ECOPRODUCT” specializes in harvesting food forest resources — wild berries and mushrooms.

The geography of berries and mushrooms harvesting is Lake Onega area, preserved forests and wildlife sanctuaries of the Vologda region and the Republic of Karelia.

Significant remoteness from industrial enterprises and highways distinguishes local production from harvested in other regions of Russia and neighboring countries in terms of background radiation level and the presence of harmful substances. “VA ECOPRODUCT” has been producing wholesale supply of wild berries and mushrooms for 7 years. The company was branded in 2015.

DIFFERENTIAL CHARACTERISTICS OF “VA ECOPRODUCT” PRODUCTS:

- Ecofriendly products.
- Sorting of products according to purpose of use right on the spot of berries and mushrooms picking.
- Shock freezing in 24-36 hours.
- After cleaning all products are packed into packages from 10kg.
- Fresh wild berries and mushrooms are cleaned and frozen so that all taste and health properties are retained.
- Products are stored in industrial refrigerating coolers at - 18 °C.
WILD BERRIES

**BILBERRY**
- Fresh frozen after mechanical cleaning;
- Package: corrugated box with polyethylene insert.
- Net weight: 10 kg.
- Expiry date: in cold storage coolers at a temperature not higher than –18 °C and with relative air humidity up to 95% – 1 year from the date of production.
- Dried
- Package: corrugated box with polyethylene insert.
- Net weight: 1 kg.

**CRANBERRY**
- Fresh frozen after mechanical cleaning;
- Package: corrugated box with polyethylene insert.
- Net weight: 10 kg.
- Expiry date: in cold storage coolers at a temperature not higher than –18 °C and with relative air humidity up to 95% – 1 year from the date of production.
- Dried
- Package: corrugated box with polyethylene insert.
- Net weight: 1 kg.

**LINGONBERRY**
- Fresh frozen after mechanical cleaning;
- Package: corrugated box with polyethylene insert.
- Net weight: 10 kg.
- Expiry date: in cold storage coolers at a temperature not higher than –18 °C and with relative air humidity up to 95% – 1 year from the date of production.
- Dried
- Package: corrugated box with polyethylene insert.
- Net weight: 1 kg.
WILD MUSHROOMS

CEP (BOLETUS EDULIS)
- Fresh frozen
  Package: corrugated box with polyethylene insert.
  Net weight: 5 kg.
  Expiry date: in cold storage coolers at a temperature not higher than –18 °C and with relative air humidity up to 95% – 1 year from the date of production.
- Dried
  Package: corrugated box with polyethylene insert.

CHANTERELLE (CANTHARELLUS CIBARUS)
- Fresh frozen
  Package: corrugated box with polyethylene insert.
  Net weight: 10 kg.
  Expiry date: in cold storage coolers at a temperature not higher than –18 °C and with relative air humidity up to 95% – 1 year from the date of production.
- Dried
  Package: corrugated box with polyethylene insert.

MILK MUSHROOM
- Fresh frozen
  Package: corrugated box with polyethylene insert.
  Net weight: 10 kg.
  Expiry date: in cold storage coolers at a temperature not higher than –18 °C and with relative air humidity up to 95% – 1 year from the date of production.
- Dried
  Package: corrugated box with polyethylene insert.
