SINGLE REGULATION OF THE EAEU MARKET

Vyacheslav Burmistrov,
Deputy Director
Department for Technical Regulation and Accreditation
Eurasian Economic Commission
Establishment of optimal requirements for ensuring the necessary safety level

Elimination of unnecessary regulation and reducing the burden on business

46 EAEU TRs adopted
39 EAEU TRs came into force
13 EAEU TR drafts and
27 draft amendments to EAEU TRs under development

List of standards to EAEU TRs:
- approved to 40 EAEU TRs
- not required to 2 EAEU TRs
- under development to 4 EAEU TRs

International requirements of WTO, CODEX Alimentarius, ISO, IEC, GHS, OECD, EU regulations and directives taken into account developing EAEU TRs
Establishment of minimal safety requirements and control over them

- Introduction of innovations and new technologies
- Encouragement of business to produce high-quality products
- Transition to resource efficiency principles and non-waste technologies

Agreement on the rules and procedures of circulation of products, the requirements for which are not established by the EAEU Technical Regulations

- Technical regulations
- Single list of products that are subject to mandatory conformity assessment
Technical regulation development

in 2016

01.09.2017
Fish and fishery products

01.01.2018
Liquefied petroleum gases
IMDG Code (the International Maritime Dangerous Goods)

01.03.2018
Restrictions of dangerous substances in electrotechnics
Directive 2011/65/EU

18.04.2018
Attractions
EN 13814-2004

02.06.2021
Mineral fertilizers
Regulation EU №2003/2003

in 2017

17.11.2018
Equipment for children’s playgrounds
EN 1176-1, 1176-2, 1176-3, 1176-5, 1176-7

01.01.2019
prepackaged drinking water
Directives 2009/54/EU, 2003/40/EU, 98/83/EU

01.01.2020
Equipment for fire safety and fire fighting

02.06.2021
Chemical products
GHS (Globally Harmonized System of Classification and Labeling of Chemicals)

01.07.2019
Flammable natural gas prepared for transportation

Not published

Oil prepared for transportation
Standards are the main mechanism that increases effectiveness of implementation of unified technical regulations.

**APPROVED** lists of standards to EAEU TRs

**APPROVED** development programs of intergovernmental standards to EAEU TRs

Priority for inclusion of standards developed on the basis of international and regional requirements:

- **On the basis of UNECE documents**
  - Wheeled vehicles, agricultural machinery
  - Products for children and adolescents, toys, machinery and equipment, fuel, personal protective equipment, food products
  - Electrotechnics, toys, machinery and equipment, equipment for work in explosive environments
  - Packaging, products for children and adolescents, toys, perfumes and cosmetics, machinery and equipment, fuel, light industry products, personal protective equipment, electrotechnics, food products

- **On the basis of IEC documents**
  - 192

- **On the basis of EN documents**
  - 211

- **On the basis of ISO documents**
  - 272
Safety of wheeled vehicles

23 UNECE Rules
- Environmental safety
- Active safety
- Passive safety
- Other safety requirements, incl. to components

112 UNECE Rules
- Environmental safety
- Active safety
- Passive safety
- Other safety requirements, incl. to components
TREATY ON THE EURASIAN ECONOMIC UNION

common rules, schemes and procedures of conformity assessment:

STANDARD SCHEMES of conformity assessment

DEVELOPED:
- on the basis of laws of the EAEU Member States
- using international practice
- ISO/IEC 17067:2013
- and approaches adopted in the EU
- DECISION № 768/2008/EC

ESTABLISH:
- uniformity and equivalence of conformity assessment procedures

FACILITATES:
- reducing technical barriers through confidence in applied conformity assessment procedures

common documents of conformity assessment

common forms of certificates of conformity and declarations of conformity

common form of certificate of state registration of products

Common form of certificate of state registration of products

Eurasian Conformity
State control (surveillance) over compliance with requirements of EAEU technical regulations

- On principles and approaches to implementation of state control (surveillance) over compliance with requirements of technical regulations of the Eurasian Economic Union in order to harmonize legislation of EAEU Member-States in this sphere.

- Procedure for cooperation between state control (surveillance) bodies of the Union Member-States.

- Procedure for cooperation between state control (surveillance) bodies and customs authorities of the Union Member-States.

- Alerting system for unsafe products.

Development of documents on the basis of international norms and best practices.

Directives, Regulations, Standards:
- № 2001/95/UE
- № 89/686/EEC
- № 93/15/EEC
- № 765/2008
- ISO 31000
- GOST R 51901-1-2002

Alerting system for unsafe products:
- RAPEX
- ICSMS

State control (surveillance) procedures:
- Treaty on the Eurasian Economic Union (Section X, Article 53, cl. 4)
Creation of the system for information exchange and cooperation

Principles and approaches for creating a system of traceability of products that ensures their legality and security

Creating of mechanisms for settling disputes (disagreements) on the results of state control in Member States

Organizing interaction of state control bodies of the Member States at all stages of the product life cycle
14 common processes

- 9 common processes – the system of circulation of medicinal products and medical devices;
- 5 common processes – in the field of technical regulation

Documents under development, which regulate:

- Single Registers of documents on assessment of conformity to EAEU TRs requirements
- Single Register of EAEU conformity assessment bodies
- Single Register of the EAEU bodies (organizations) carrying out registration of passports (e-passports) of wheeled vehicles and self-propelled machines

www.eurasiancommission.org
Cooperation of the Eurasian Economic Commission with:

- MoU of Understanding
- Application of Interstate Standards for implementation of requirements of the EAEU technical regulations
- Roadmap for cooperation in technical regulation and standardization
- Roadmap for cooperation in technical regulation and standardization
- Action Plan on cooperation for 2017-2019
- Participation in WP. 29 and WP.6 (MARS Group and GRM) meetings
Thank you for attention!
